This build improved upon the theme in 2250 with the beginnings of the well-known Watercolour theme. It had the first new-style start menu (2250 had it, but it was hidden). - Internal leak

This was basically a massive bug fix for 2276. It was much more stable than 2276, and contained slight changes to the UI as well. Another official build.

This was not that much of a change from 2416, except for 2 things: 1, the start menu was bloated even further than it already was, and 2, this was the first build containing Windows Product Activation. This was the last build to contain the Watercolour theme.
